Sir:

I, Adam F. Cox, Registration No. 46,644, am an Attorney of Record representing the Applicants in U.S. Patent Application Serial No. 10/524,387 filed October 3, 2005. Fort Wayne Metals Research Products Corporation and W.C. Heraeus GmbH & Co. KG are the assignees and owners the entire right, title and interest in U.S. Patent Application Serial No. 10/524,387 by virtue of a corrective assignment forwarded to the U.S. Patent Office for recordation of April 23, 2008 (copy enclosed). I have reviewed the above-mentioned application and, to the best of my knowledge and belief, the title to U.S. Patent Application Serial No. 10/524,387 is in Fort Wayne Metals Research Products Corporation and W.C. Heraeus GmbH & Co. KG.

On behalf of Fort Wayne Metals Research Products Corporation, I hereby disclaim the terminal

part of any patent granted on U.S. Patent Application Serial No. 10/524,387, entitled "Drawn Strand Filled Tubing Wire " filed on October 3, 2005, which would extend beyond the expiration date of the full statutory term of U.S. Patent Application No. 11/203,986 filed August 15, 2005, entitled "Drawn Strand Filled Tubing Wire " which is assigned to Fort Wayne Metals Research Products Corporation and W.C. Heraeus GmbH & Co. KG, and I hereby agree that any patent so granted on U.S. Patent Application Serial No. 10/524,387, filed October 3, 2005, shall be enforceable only for and during such period that the legal title of said patent shall be the same as the legal title to U.S. Patent Application No. 11/203,986 filed August 15, 2005, this agreement to run with any patent granted on U.S. Patent Application Serial No. 10/524,387 and to be binding upon the grantee of such patent, its successor or assigns.

Petitioner does not disclaim any terminal part of any patent granted on U.S. Patent Application Serial No. 10/524,387, filed October 3, 2005, prior to the expiration date of the full statutory term of U.S. Patent Application No. 11/203,986 filed August 15, 2005, in the event that this patent expires for failure to pay a maintenance fee, is held unenforceable, is found invalid, is statutorily disclaimed in whole or terminally disclaimed under 37 C.F.R. §1.321(a), has all claims cancelled by a reexamination certificate, or is otherwise terminated prior to the expiration of its statutory term as presently shortened by any terminal disclaimer.

I hereby declare that all statements made herein of my own knowledge are true, and that all statements made on information and belief are believed to be true; and further, that these statements are made with the knowledge that willful false statements, and the like so made, are punishable by fine or imprisonment, or both, under Section 1001, Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the U.S. Patent Application Serial No. 10/524,387 or any patent issuing thereon.

The undersigned authorized the U.S. Patent Office to deduct the amount of \$130.00, which represents the requisite fee for filing this Terminal Disclaim under 37 C.F.R. 1.20(d), from Deposit Account No. 02-0385, BAKER & DANIELS.
